Diana and Tom,

At the meeting held 12-19-09 a motion was made and passed to establish an Oversight Committee. The establishment of this committee was to address the "objection" letter presented by Tom Meyers.

I propose that we appoint Vivian Koonz to chair this committee and let her pick other members to review and address these objections. I think we as the board need to defer to committee since we are the object of the objection. Once this objection letter is addressed the committee can work on other issues of complaint.

There will be some fine tuning issues with the committee but this will be a fine "test case". Once we have a full board other objections can be investigated such as how bylaws were changed and recorded with the county with only two board members signatures.

Please vote on the proposal by reply email. Ms. Koonz can report on her findings at the 01-23-10 Members Meeting.

Mr. LeFevre, please see that Ms. Koonz has all four components to the objection letter. I will contact her regarding reporting time lines.

Thanks to all for your continued work and diligence.

Clifford Johnson
HVPOA Vice President (Chairman)

Oversite committee. I agree that members should address these concerns , I see great value in establishing A watch group for this board and future Issues. I vote to let Ms. Koonz organise this and proceed . Thanks TOM LeFevre.

I am truly honored by the appointment to the Oversight Committee. I will immediately will give you a list of 4 other people to approve and appoint to the committee. But I first want to see who signed the objection letter, to make sure there will be no conflicts of interest when investigating the objection.

Hopefully by the Member's Meeting, we can have a determination on the objection letter as well as the outline of the policies and procedures, scope of responsibilities and powers, and any limitations to present to the Board for approval.

It is my vision to have the Oversight Committee eventually an elected position. It would be nice to have things in place to add these positions to the April ballot.

Thanks for all your support.

Vivian Kunz

Vivian,

It looks like you are the committee chair so all you need is a copy of the "objection letter" from Tom and off you go.

C
