Subject: Hideaway Valley Snow 2009 and 2010

To: Shelly Marshal

With the interest Red Z Inc has in Northern Sanpete County we want to offer a back up to your snow removal program. We take care of four of our own developments in the area and would be happy to be a back up or primary contractor with snow plowing. Without knowing which roads and other specific data all we could do now is offer a per hour price of \$98. Per hour. I haven't seen the bid requirements for the job and equipment needed so this cost is for a 36000 lb 185 HP Motor grader with no chains. It pushes at 3 to 4 miles per hour with a 14 ft blade.

When Formen developed Hideaway, Red Z Inc built all the roads and provided snow removal for five years. Red Z Inc knows the task quite well and we are there anyway. It is my understanding that a road section must be taken care of for the school bus. We would need to know who orders each push and where. We have other equipment for deep snow.

We hope this helps out with your needs.

Red Z Inc, a Utah Corporation since 1982
